"A family of believers seeking to grow spiritually while sharing Jesus and serving others."

Yes, It's a Pandemic

by Matt Clifton

The terms "epidemic" and "pandemic" have been used recently. An epidemic occurs when a disease affects more people than usual for an area. A pandemic is a worldwide epidemic. With pandemics, health officials search diligently for the cause, how it's transmitted, and possible clues to protecting the worldwide population.

During this time, we're reminded of the worldwide scourge of sin. Immorality and disobedience to God's word qualifies as a pandemic, because sin has swept across the globe, infecting and destroying millions of souls. Unlike a virus, we know the details of where sin comes from, how it is transmitted, and how it can be cured.

Some believe Satan, or even Adam and Eve, caused sin, but we are ultimately responsible for our own sin. It's found in every heart that seeks its own will versus the will of the Father (James 1:14-15).

Sin is contagious. We would like to think our lives don't affect others, but that's inaccurate. Paul said that "Evil company corrupts good habits" (1 Cor. 15:33). We can be infected by sinful examples around us, and transmit it to others by our own example.

While finding cures for a virus can be tricky, the cure for the virus of sin comes from Jesus' sacrifice on the cross for all sins (1 John 2:2). Faith and believing Jesus is the Son of God (John 8:24), confessing sin (1 John 1:9), repenting (Acts 17:30-31), and being baptized into Christ (Acts 2:38; Mark 16:16) will bring you into full reconciliation with God. There is nothing more valuable than a clean conscience (1 Peter 3:20-21).

Yes, there is a pandemic of sin rounding the globe, and the effects are far greater than any physical virus. But thanks be to God who has given us the cure through His Son Jesus the Christ!
